

Acial and QCENTRIS are creating a New European Leader in Software Quality Assurance

Paris/Zurich, 03/11/2021 - Representatives from Acial and QCENTRIS announced this week that the two companies will merge.

The merger of the two companies will unify under one roof an extensive range of specialist personnel and expertise over the Software Quality Assurance industries.

About Acial

Acial is the French leader of Software testing's pure player with a twenty-years-old expertise - a unique status of a trusted third party in every projects.

“Much more than a simple growth, it is an opening to the world for Acial and the generation of multiple cross-border opportunities for both our clients and our teams.” **Petros Mavrocordatos, CEO**

About QCENTRIS

QCENTRIS with an outreach across Europe, EMEA and South Asia focusing on software development, quality assurance, consulting and outsourcing as a leading company, serves a wide spectrum of industries.

„We are delighted to be joining forces with the acial team, which, with its exceptional talent, will join us in providing the next generation of outstanding services to the industry.” **Reto Züst, CEO**

Goals & Vision

Together we focus on agile quality assurance, testing and are the reliable and sustainable partner for continuous testing / high end test automation, functional and non-functional testing cross industries with our nearshore, offshore, and onsite service offerings. Additional we are the partner for fintech solutions in the field of digital transformation services starting with strategic planning and UX / UI design, through application development to technical delivery, production maintenance and support all delivered with quality and fast agility to effectively support businesses in new generation financial and insurance industries. We offer services in Europe, Africa, Middle East, and south Asia.

We see ourselves as long-term business partners and deliver high-quality and sustainable services. Our consultants are motivated, trained, and curious to develop new methodologies, technologies and are keen on taking over responsibility. We are a trusted digital partner, providing innovative testing and end 2 end digital transformation service to their clients.
